## QUESTIONS PEOPLE ASK

**Q. Did St Peter really walk on water? It defies the laws of science. Or is this a sort of story for the sake of making a point?**

**A.** A miracle is something which goes beyond the normal laws of science. As far as I am concerned, it would not bother me if somebody could prove that Peter's act never actually happened. What appeals to me in the story is the lesson that as long as Peter kept his eyes on Jesus he could walk through the storm, but once he concentrated on the wild wind and billowing sea, he began to sink. But even then, the Lord stretched out a hand to save him. It is a story giving immense encouragement.

## THOUGHT FOR THE WEEK

Six hundred and thirteen commandments were given to Moses... Then David came and reduced them to eleven. Then came Isaiah and reduced them to six. Then came Micah, and reduced them to three. Then Isaiah came again and reduced them to two, as it is said, 'Keep justice and do righteousness.' Then came Amos, and reduced them to one, as it is said, 'Seek me and live.' (Rabbi Samlai)
